## **DETAILED ACTION**

### ***Response to Amendment***

1. In view of applicant's amendment filed 01 March 2004, formal acknowledgment is made of the cancellation of claims 2 and 16-56.

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Andrew Stover on 18 March 2004.

The application has been amended as follows:

In claim 15, line 1, "2" has been deleted and - - 1 - - has been inserted after "claim."

### ***Allowable Subject Matter***

3. Claims 1 and 3-15 are allowed over the prior art of record.
4. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance is the inclusion of the limitations of a table having a first, second and third wire supports, the first and second wire supports having opposite ends joined to define a first and second foot and wherein a portion of the first and second wire supports form a first and second

Art Unit: 3637

support platform, respectively, wherein the first wire support has a first segment extending upwardly from the first foot to the first support platform and a second segment extending from the first support platform to the second foot, and wherein the second wire support has a first segment extending upwardly from the second foot to the second support platform and a second segment extending from the second support platform to the first foot; the third wire support having opposite ends joined to the first and second feet, wherein a portion of the third wire support forms a third support platform, the third wire support having a first segment extending from the first foot to the third wire support platform and a second segment extending from the second foot to the third support platform, and a work surface supported on the first, second and third support platforms. A table having all of the above limitations in combination was not reasonably found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
